

The Minimum Age Limit for TikTok is 13

TikTok is a social networking app that replaced the popular Musical.ly app when it went offline in 2017. It gives users the ability to watch, comment on and create short video clips of up to 60 seconds.

What are the current trends and challenges?

TikTok trends and challenges are a popular part of the app that change often. Users can re-create content from dance challenges to memes about current events. While many are harmless and fun, there are others that need to be monitored closely. Some challenges and trends can harm a child's physical health and mental wellbeing.

What do parents say about the app?

Parents have expressed their concerns about the inappropriate language of some of the videos posted. They have also voiced fears about predators using the app to connect with children.

By default, all accounts for over 18s are set to 'public' so anyone on the app can see what a child shares. Users can like or react to a video, follow an account or send messages to each other, so there is the risk that strangers will be able to directly contact children on the app. Children may also be tempted to do something inappropriate or take unsafe risks to increase their following or get more likes on a video.

What is the minimum age for TikTok?

According to TikTok's terms and conditions, the minimum age is 13. Users can choose to sign up with an email address or phone number. They can also use an existing Google, Facebook, Twitter or Instagram account. Once they have selected an option, they are then asked to enter their date of birth. If it calculates that the person is below the age of 13, the app displays the following message: "Sorry, looks like you're not eligible for TikTok. But thanks for checking us out!" If a child already has a TikTok account but is under 13 then they must have lied about their age.

According to the TikTok *Terms of Service*, if they learn that someone under 13 is using their services, they will terminate that user's account. If a person finds inappropriate content that violates TikTok's Community Guidelines or have any other issues, they can send TikTok a report.
